

## Fall Weekend Begins Today

By PAT ERNISSE

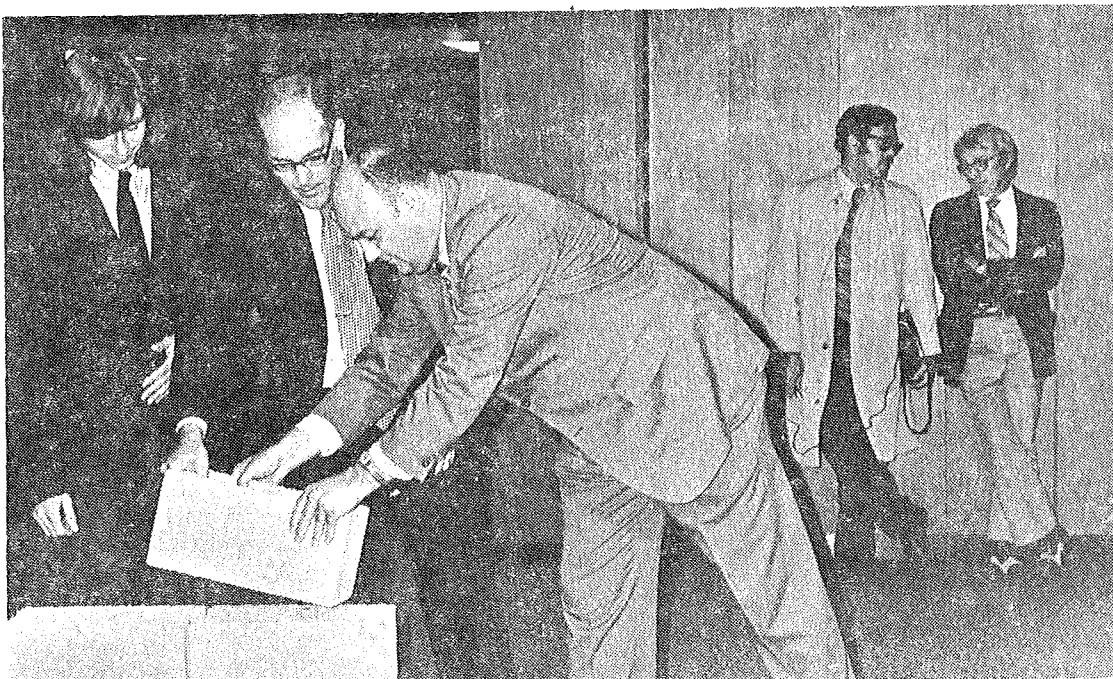

This year's Fall Weekend begins today, October 20, and will last until tomorrow. It is being sponsored by the senior class and the student council.

The fun begins this afternoon with a pep rally in the gym. A snake dance and bonfire sponsored by student council are planned for tonight at 7 p.m.

Starting at 2 p.m. tomorrow is a football game with the Trojans hosting the Irondequoit Indians. It will be Dad's Day with the fathers of the team members wearing jerseys with their son's number on it.

During halftime there will be a band performance, a parade of the queens elected from each class, the judging of floats, and the premiere showing of this year's Trojanettes.

A dance featuring "Joshua" will be held tomorrow evening from 8-11 p.m. According to Karol Bock, senior class president, two factors were important in the decision to have the dance on Saturday. One was head football coach Mr. Wilt's curfew on his football players. Because of this, none of the football players would be able to attend the dance if it were held on Friday. The other factor was "Grand Funk's" appearance in Rochester tomorrow night.

Jim Paris, Mr. David Robinson, and Mr. Hunter Low lay the first brick of WGMC-FM to begin the construction of the station at the "carpet breaking" ceremony October 10.

## WGMC: Dream Nearing Reality

The construction of WGMC-FM, Greece's first educational radio station began Tuesday, October 10 in Athena's Commons Area when Jim Paris, Station general manager; Mr. David Robinson, superintendent of schools; and Mr. Hunter Low, chairman of the FM citizens' advisory council laid the first brick.

The "carpet-breaking" ceremony was attended by about 50 people and received coverage from two local television stations.

Paris, a senior at Arcadia High School, said that the dream of a radio station in Greece is becoming more and more of a reality as the station progresses towards its first broadcast.

Mr. Low said that a great

deal of work has been put into the station and the people who have worked on it should be proud of their work.

Superintendent Robinson said that credit was due to the more than 200 students and adults who have worked to bring the station into its newest phase--that of actual construction.

The ten watt station will be constructed in the eastern half of the Commons Area. It will cover 1,500 square feet, and broadcast at 90.1 megacycles.

The operation of the station is in conjunction with the Redesign program. The station will be operated by community students and adults.

Federal funds totaling \$1,951 in the form of a Title III

Mini Grant have been given to the station. Funds for innovative programs are supplied through the Title III of the Elementary and Secondary Education Act.

Station personnel are hopeful that WGMC will begin broadcasting in early January, 1973.

## Yearbook Starts Subscription Sales

By ELLEN WOOD

Ekklesia III, this year's version of Athena's yearbook, has gone on sale for \$6.50 per copy in the bookstore.

A minimum of 800 yearbooks must be sold if the yearbook is to break even financially.

The remainder of senior

pictures for the yearbook were taken last week by Photographics, Inc. of Rochester. Proofs will be returned to seniors by the end of the month.

Homeroom, club, and organizational pictures were begun last week and should have been finished by the end of this week.
